	Thunderstorm accompanied with lightning	At isolated places over Odisha and Bihar.

(A) Depression over northeast Rajasthan and neighbourhood

- Yesterday's deep depression over northeast Madhya Pradesh and adjoining south Uttar Pradesh moved west-northwestwards, weakened into a depression in the morning (0530 hours IST) and lay centered at 0830 hours IST of today, the 5 th August over Northeast Rajasthan and neighbourhood near latitude 26.5°N and longitude 75.6°E,
- about 40 km south-southwest of Jaipur (Rajasthan).
 - 100 km east of Ajmer (Rajasthan).

- 130 km south-southeast of Sikar (Rajasthan).
 - 280 km southeast of Bikaner (Rajasthan).
- It is likely to continue to move west-northwestwards across North Rajasthan and weaken further into a well marked low pressure area during next 12 hours.

Low Pressure Area over Southwest Rajasthan & neighbourhood

- Yesterday's low-pressure area over southwest Rajasthan & adjoining south Pakistan moved away westwards towards Pakistan in the same evening (1730 hours) of 4th August 2024 and became less marked over south Pakistan and adjoining northeast Arabian Sea in the morning (0530 hours) of today.
